

## 1 BEDROOM APARTMENT FOR SALE IN ALCÂNTARA

Price **€540,000**

REF: 1671691

### PROPERTY FEATURES

Project for 8 loft apartments with an Industrial style, next to the riverfront. The new "Alcântara LX55" development, in the emerging and regenerated riverside area of Alcântara, is close to the "LX Factory," served by a diverse offer of traditional commerce and an ample transport network.

Inserted in a refurbished building with 5 floors – an excellent example from its days – the 8 apartments have typologies T1 + 1 and T2, with areas between 90 and 115 sqm. The interiors have unique features of the industrial style, such as stone walls in some of the rooms. All apartments have outside areas. The apartments facing south have views over the "25 de Abril" bridge. The building has an elevator and covered garages. The construction started in September 2019 and is expected to end by December 2020.
