

## 2 BEDROOM APARTMENT FOR SALE IN HUA HIN

### POA

REF: 913473

### PROPERTY FEATURES

- Golf

The Black Mountain Luxury Condominiums features contemporary architecture and decoration in warm tone and offers spectacular views of the Black Mountain Golf Course.

The condominium building, with a total of 76 different apartments, was one of the first houses constructed at Black Mountain. The current Black Mountain Master Plan does not include any additional condominium buildings, making the few condominiums still available for purchase very attractive.

The design concept in the condominiums is inspired by the Hua Hin charm as being the ultimate get away. Adorned with modern contemporary decoration, each unit offers luxurious privacy living and is smartly designed to utilize available space, open to the spacious balcony and the panoramic view of the golf course.

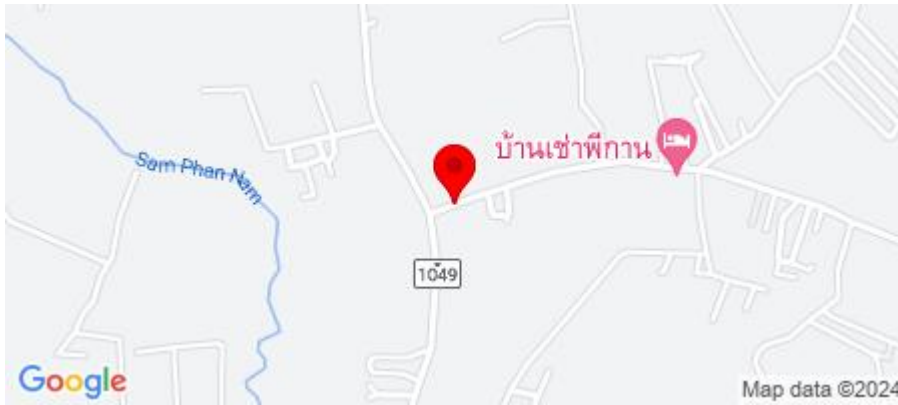

Our condominiums come in two and three-bedroom configuration as well as penthouses. All have large course-view terraces and are roomy, airy and light inside. The 2-bedroom/2-bathroom condos are 142 square meters in size including the terrace, while the 3-bedroom/2-bathroom configuration is 182 square meters. The 3-bedroom/3-bathroom luxurious penthouse offers 317 square meters of living area, including the terrace.

Each condominium purchase include one lifetime membership to Black Mountain Golf Club.
